

Inclusive Playgrounds: A World of Possibilities

Sensory, Transferable and Accessible play products now available!

Bring inclusive play to life! Our sensory playground equipment offers a rich and engaging experience for all children, while our accessible and transferable play features ensure everyone can join in the fun.

As a proud NZ Made business, we prioritise quality, safety, and fun in every project. By choosing to work with us, you're not only getting a great playground but you're also supporting local manufacturing and contributing to the New Zealand economy. Explore our range of Sensory, Transferable, and Accessible play equipment in this brochure and visit our website for more details.

Sensory Equipment

Sand Table

The Sand Table provides a wide range of sensory experiences and playful interactions between children of varying abilities and mobility. The height of the table makes the sand fully accessible from a wheelchair.

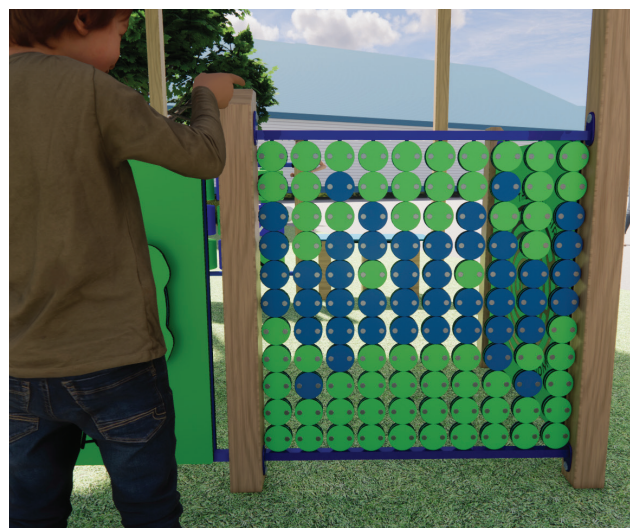

Fidget Spinner

An engaging and stimulating tactile activity that immerses children into a goal-oriented challenge of pattern making, where they have complete control over determining the outcome.

Communication Board

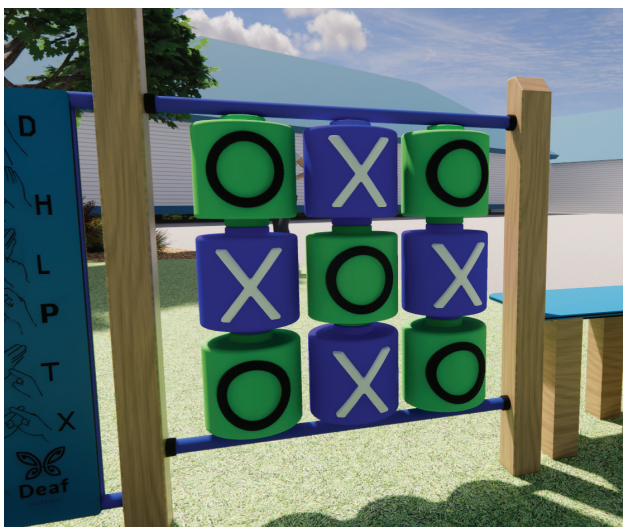

Our site-specific Communication Board can help with the challenges of communication, particularly for children with language limitations allowing more effective and independent communication strategies.

Pixel Panel

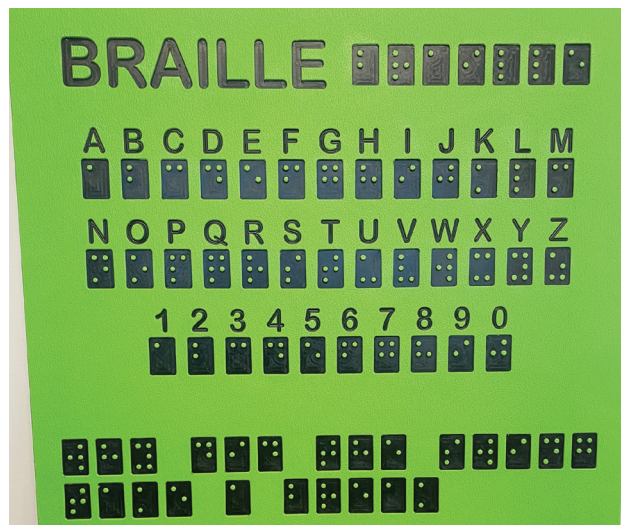

A tactile panel that fosters creativity, encourages social interaction, and facilitates intergenerational play. Featuring double-sided coloured disks, this product offers children the ability to create picture and patterns.

Sensory Equipment

Tic Tac Toe

An all-inclusive panel that promotes kinaesthetic social engagement and critical thinking. It encourages intergenerational play, inviting individuals of all ages to participate in an interactive game.

Braille Board

Our Braille Panel helps kids learn Braille and have fun at the same time. They'll practice reading Braille letters and numbers and then try to decipher a fun puzzle at the base of the panel.

Mirror Illusion Panel

This interactive panel blends strips of mirror with open strips of the view ahead, providing optical illusions for any age user. With two or more people you can look at each other and watch your reflection blend with another.

Tumble Maze, Gears and Driving Panel

These interactive products encourage kinaesthetic, cause-and-effect play. The hands-on experiences offered by these panels invite children to explore various concepts while honing their fine motor skills, coordination, and critical thinking abilities.

Sensory Equipment

Sign Language Panels

Endorsed by Deaf Aotearoa, these panels showcase New Zealand Sign Language, promoting collaborative engagement between children with hearing impairments. This educational panel facilitates social and intergenerational play.

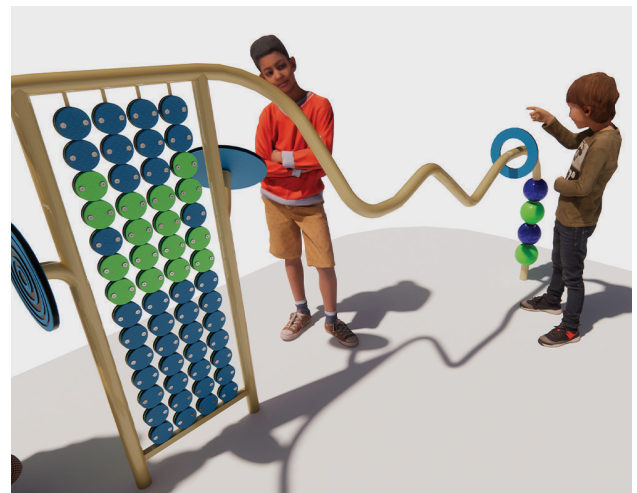

Textural Panels

Touch is one of our most important senses and plays a crucial role in children's learning and development. Textural panels help stimulate the body's senses and helps children understand and explore the world around them.

Spinning Illusions

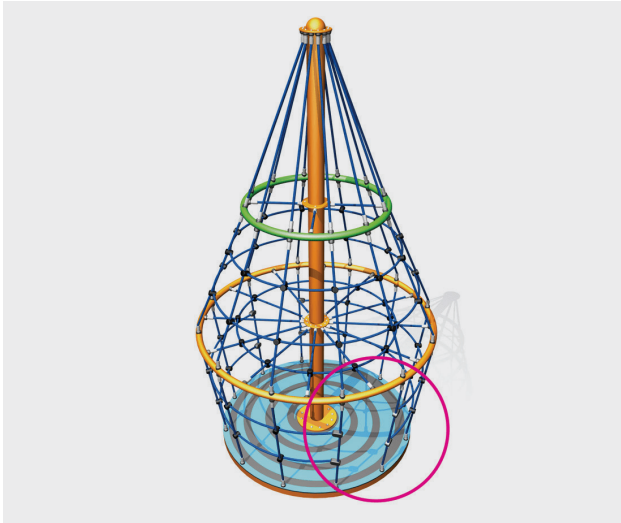

Spinning Illusions are visually captivating play panels with rotating PolyPlay discs that create mesmerising patterns, encouraging self-directed play experiences as well as sensory exploration and development.

Sensory Pipe Wall

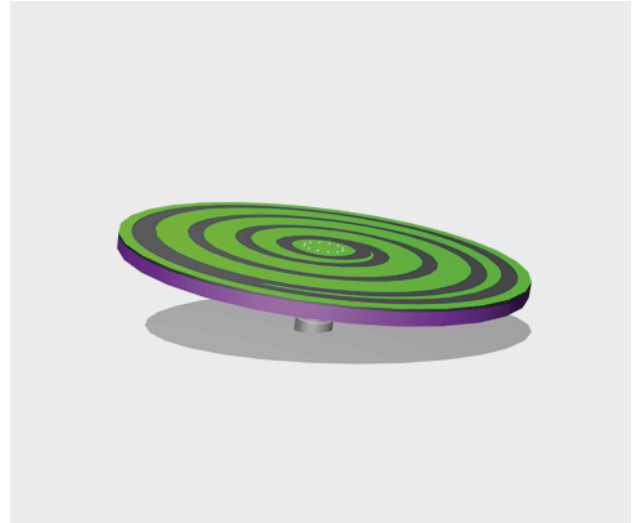

An inclusive playground feature with a variety of engaging elements, offering a multi-sensory experience that promotes fine motor skills, concentration, and patience. Customisable options are available.

Transferable Equipment

Orion Spinner

Features an easy access transfer entrance at the lowest level so a wide range of children with different levels of mobility can easily join the fun. The Orion allows children to safely enjoy the motion of the spinner at different heights.

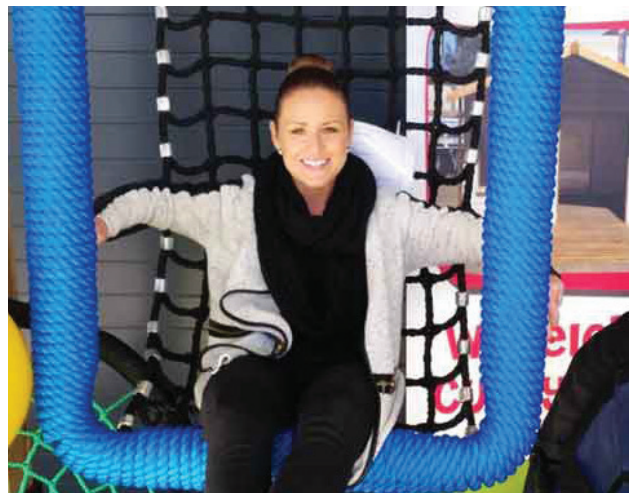

Orbit Spinner

Set on an angle, the Orbit creates a challenging surface for users to try and hang on! It includes a smooth and continuous platform under surface, routed polyethylene deck. This item can be used as a transfer item.

Jenn Swing

This swing seat offers safe and comfortable swinging for toddlers and children with limited mobility. Its reclined design provides full support, and the safety harness keeps kids secure.

Integrated Swing Seat

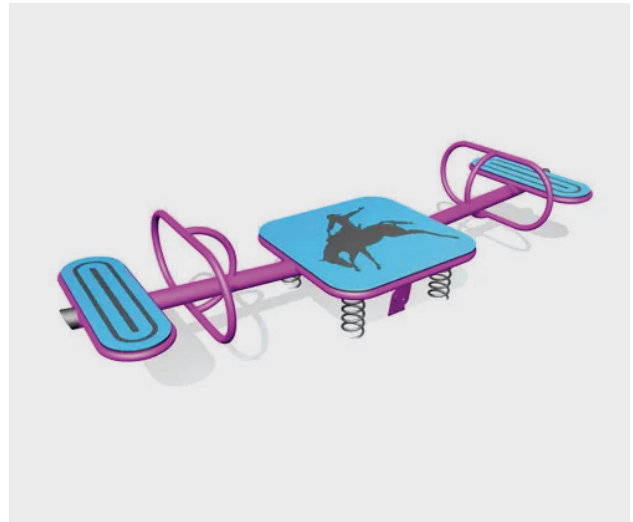

This seat option provides more support than a standard swing seat for older children with limited mobility. The backrest and arm rests allows them to sit upright in a more comfortable way.

Transferable Equipment

Infant Disabled High Back Swing Seat

This seat option allows a younger user to sit upright while having more support than a standard swing seat. A back rest and arm rests caters to children with lower mobility.

Rodeo Rider

The Rodeo Rider is a social play item that rocks and bounces. Kids can sit, lie, or stand on it, depending on their skills, and its height makes it easy for wheelchair users to transfer onto the item.

Lillypad Basket Swing

The Lillypad Basket is an all-age all ability swing. Also perfect for children with physical and mental restrictions as it supports their whole body weight and the rope edges give a secure grip so they can't fall out.

Spinning Chair

The spinning chair is an individual spinner, that provides a supported back rest and arms for support. This enables children with less mobility to have their body supported while spinning.

Accessible Equipment

Wheelchair Accessible Spinner

This wheelchair-accessible spinner has a low, ground-level platform, making it easy for users to access. Its wide base plate provides ample room for multiple children to play and interact together at the same time.

Wheelchair Accessible Trampoline

This trampoline is set into the ground for easy access. Its shape allows for a wheelchair and caregiver to assist with bouncing, and is designed to support multiple users, including those in electric wheelchairs.

Wheelchair Accessible Seesaw

This wheelchair-accessible seesaw has a tilting base for easy entry from ground level. Its smooth mechanism ensures balanced play for users of various weights and abilities, promoting social interaction.

Wheelchair Accessible Swing

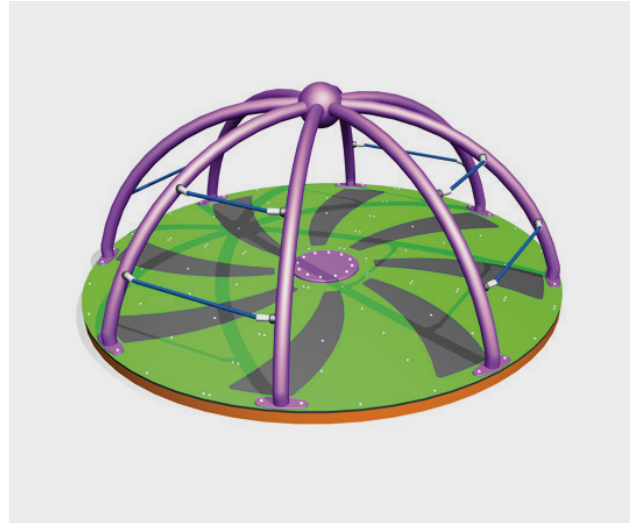

This swing has a ramp for easy entry and a flat base that accommodates wheelchairs or multiple users at once. Its self-swing mechanism allows children to control the motion by pulling levers.

Accessible Equipment

Wheelchair Rocker

This seat option allows a younger user to sit upright while having more support than a standard swing seat. A back rest and arm rests caters to children with lower mobility.

Above-Ground Carousel

The Rodeo Rider is a social play item that rocks and bounces. Kids can sit, lie, or stand on it, depending on their skills, and its height makes it easy for wheelchair users to transfer onto the item.

As a full-service playground company, we're committed to guiding you through every step of the process. From initial design to expert installation and ongoing maintenance, our team is here to ensure your sensory station is a success. Enjoy the peace of mind that comes with having a trusted partner by your side.
